

Melanie Weller - INTRODUCTION

Does it seem to you that in our society, true wisdom lives in the dark?

That the best solutions for our collective problems never see the light of day because they are not profitable to the people with power

And it leaves you triggered and enraged

Wondering how to create a new system that makes the old one obsolete

People like us are realizing the importance of weaving together science, spirituality, and storytelling in order to create connection, change, and a new consciousness

Our speaker today is here to help. She lectures and teaches on Neurotheology -

How our belief systems live in our nervous systems

She unites the contemporary science of her 30 years as a healthcare provider specializing in the vagus nerve

with the ancient science of how we embody the planets, stars, and the enduring stories associated with them

She is on a mission to spread this sacred union in Fearless Presence

Please give a generous welcome to Melanie Weller
